

1 Day : Banteay Srei and Kbal Spean

Start : 7am

Your adventure will begin with a drive through the breathtaking countryside, to the Temple of Banteay Srei.

This 'Jewel in the Crown' of all the Angkor Temples is a very small and unique temple, which boasts the finest carvings in the Angkor region. Almost every surface has been decorated with intricate three-dimensional carvings. Banteay Srey continues to be maintained beautifully in its original condition.

We visit Banteay Srey when the morning light illuminates the red stone of the temple. This is the best time to experience and photograph this distinctive temple. Its picturesque moat and water lilies add to the beautiful scene. Arriving early also ensures you can intimately experience Banteay Srei before the large tour groups arrive. Lunch at a local restaurant (not included).

We drive on to Kbal Spean, commonly known as 'The Valley of a 1000 Lingas'. You will have ample time to experience the beauty of this site and enjoy the steep walk to the famous Kbal Spean Rock Bridge and waterfalls. You will also see intricate and historic carvings of animals and Hindu Deities at this site, after your exploration, and cooling off of the feet we head back to your accommodation in Siem Reap.
